Forecast for Tuesday 28 Feb 2023

Weather: Dry everywhere. Cloud slightly uncertain, but looking like another sunny day for Mull and Lochaber, and some sunny spells for Northern Argyll. Further south and east, more chance of cloud, mainly over Arran and the Trossachs, though as in recent days, the boundary of the cloudier areas will be uncertain and could change through the day.

Chance of cloud-free hill tops above 800m: 60% in southeast, 90% in northwest.

Low Cloud and visibility: Cloud in Trossachs and Arran 700 to 900m with the odd lower patch, but small amounts in the northwest. Away from cloud mainly good visibility but perhaps some early fog patches in a few glens.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Though winds not strong enough for a severe wind chill effect, still a significant chill on summits with a moderate breeze and sub-zero conditions.

Forecast for Wednesday 01 Mar 2023
Weather: Another dry day, best of the sunshine across Mull and Lochaber, possibly more cloud in the Trossachs and Arran.

Maximum wind: Northeasterly 10-15 gusts 20mph

Chance of cloud-free hill tops above 800m: 50% in Trossachs, 80% or more elsewhere

Low Cloud and visibility: Occasional cloud in Trossachs 600 to 800m, little cloud in northwest with visibility generally good.

Temperature: **Glens:** Minus 3 at first in clearer areas rising to Plus 6 Celsius
At 800m: Minus 1 Celsius
Freezing level: 700m
